
a) Agents and their network
b) Positions over time
projection 2
projection 1
c) Increments at each step
t = 1
t = 2
t = 3
t = 4
d) Pair scores at each step
t = 1
t = 2
t = 3
t = 4
e) Repeated co-movement
agents
agents
normal score
3
2
1
0
−1
−2
−3
f) Scan and permutation null
permutations
largest set score
g) Membership
round 1
round 2
agent score against $\hat{S}$
agents
subnetwork 1
subnetwork 2
other agents
statistic
observed
permutation null
two-groups model
